

Seller's Guide

Pricing

- ✓ Honestly and objectively evaluate your vehicles worth. Potential buyers will be very critical of your vehicle-you should be too.
- ✓ Take into consideration repair work needed, mileage, hours on the generator, wear items like tires and brakes, age of batteries, hoses, etc.
- ✓ Be honest with yourself and price it accordingly.

Preparation

- ✓ Clean your vehicle completely and thoroughly inside and out.
- ✓ Replace burnt out lights, fuses, etc.
- ✓ Gather your maintenance records and organize them chronologically. Well maintained vehicles are worth more-period.
- ✓ Make a copy of your title for the buyer. If you don't have it, call your lending institution for a copy with a lien release if it's paid off.

Place your Listing

- ✓ Fill out our questionnaire ***completely***.
- ✓ Add any comments that will help potential buyers make a choice to buy yours.
- ✓ Mention specifics that make your vehicle stand out.
- ✓ "Loaded" or "Lots of Extras" means NOTHING. Be precise and tell what makes it "Loaded".
- ✓ Take good quality pictures. If you don't have a digital camera, borrow one. Pictures are what sell the vehicle. Send as many as you want and we'll select the best but send AT LEAST 12!

REMEMBER—If you have any cool doodads that will help you sell your vehicle TAKE A PICTURE OF IT!

Thanks to Wag'n Tails for the use of some of their pictures!
